

Your Partner in Sustainable and Innovative Applications

The future belongs to those who innovate today

ABOUT US

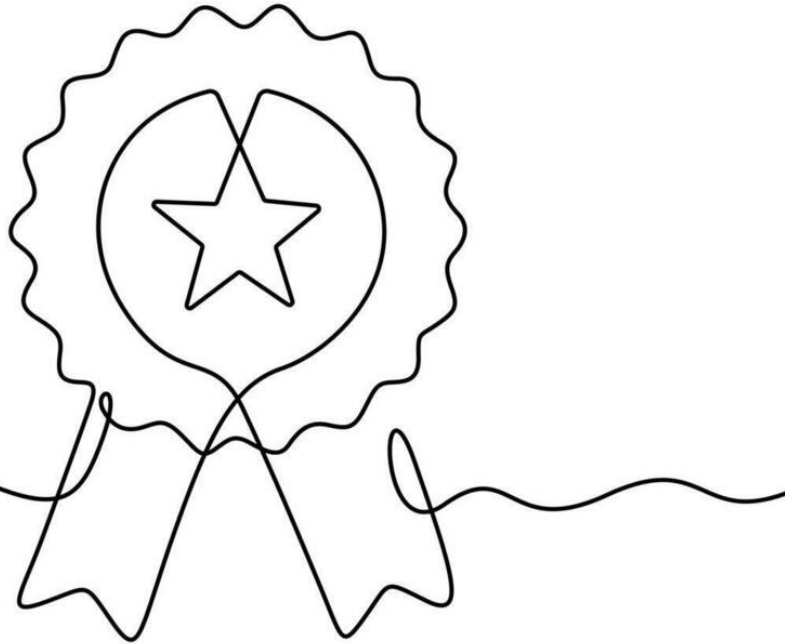

- Founded in 2000, pioneers in automation & app development
- 20+ years delivering high-quality, mission-critical solutions
- Backbone for many IT companies
- Focused on reliable, tailored information systems

Great things in business are never done by one person. They're done by a team of people.

ACHIEVEMENTS

- Established: **2000**
- Applications Developed: **100+**
- Products Launched: **50+**
- Active Users: **5,000+**
- Satisfied Clients: **3,000+**

Success is the sum of small efforts, repeated day in and day out

OUR SERVICES

We craft solutions that not only meet today's demands but also anticipate tomorrow's opportunities.

- IT Consultancy & Custom Applications
- Cloud & Web Applications, Hosting
- Smart Automation & Embedded Systems
- Machine Interfacing & IIoT
- Application Migration & Maintenance

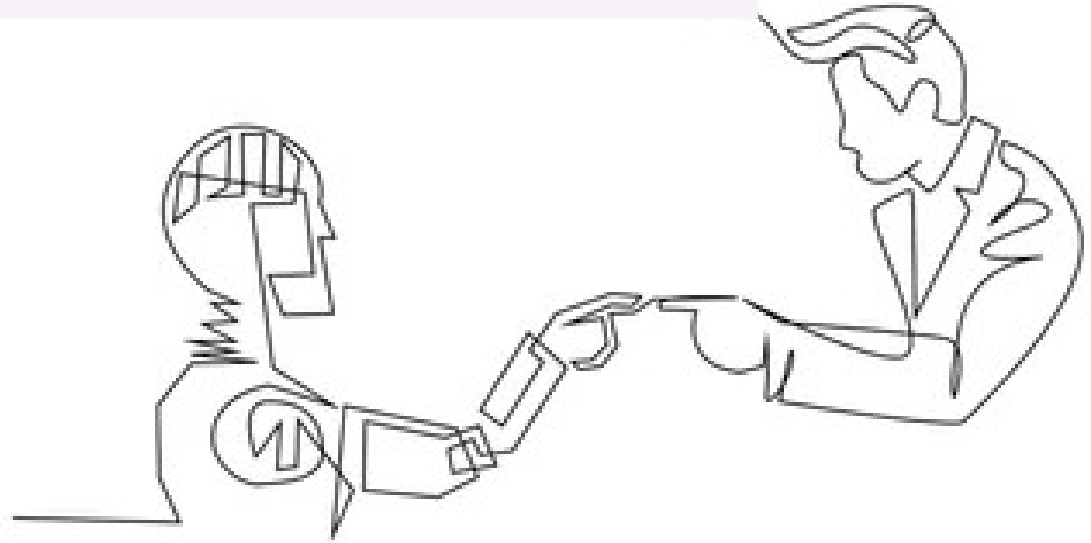

The best way to predict the future is to create it.

TECHNOLOGIES & APPROACH

- Custom Application Development
- Database Solutions
- Embedded & Hardware Systems
- Cloud & Infrastructure
- Consultation & Strategy
- Security & Compliance
- Support & Maintenance

Our experts work with you to create tailored, innovative solutions, using advanced technologies and proven methods to ensure seamless, secure, and interoperable applications—maximizing value efficiently

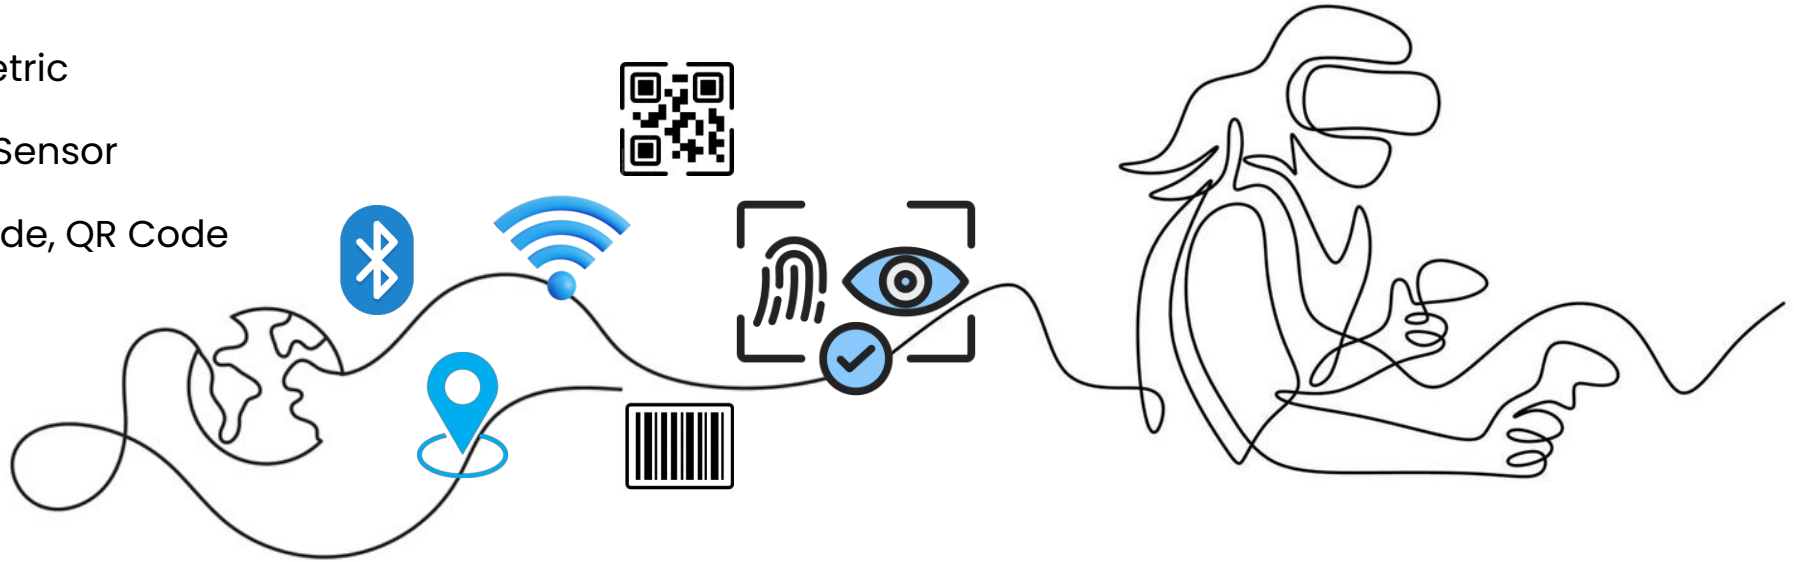

Innovation is the ability to see change as an opportunity

INTERFACING TECHNOLOGIES

- RFID, Bluetooth
- GPS, UWB
- Kiosks
- LoRa
- Biometric
- IoT & Sensor
- Barcode, QR Code

We excel in integrating hardware and wireless technologies to boost automation, data collection, and real-time decision-making

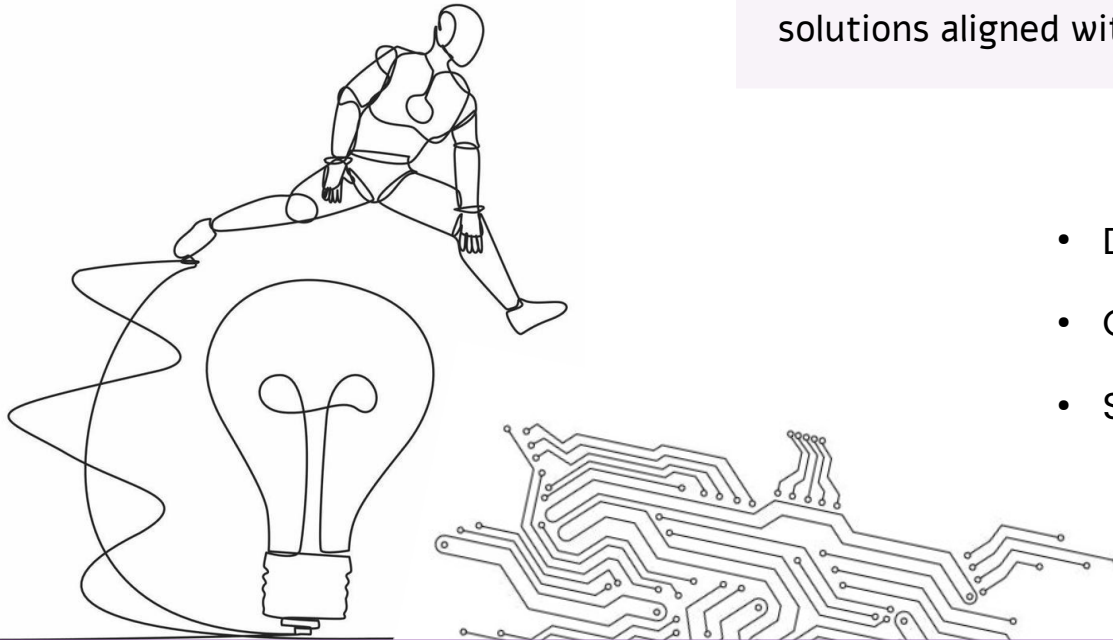

Connecting the physical and digital worlds for smarter solutions

CUSTOMIZED HARDWARE SOLUTIONS

Our team develops customized hardware and PCB designs to meet your automation needs, delivering reliable, innovative solutions aligned with your goals.

- Dependable Embedded Software & Hardware
- Custom Electronic Hardware & PCB Design
- Scalable, reliable automation hardware

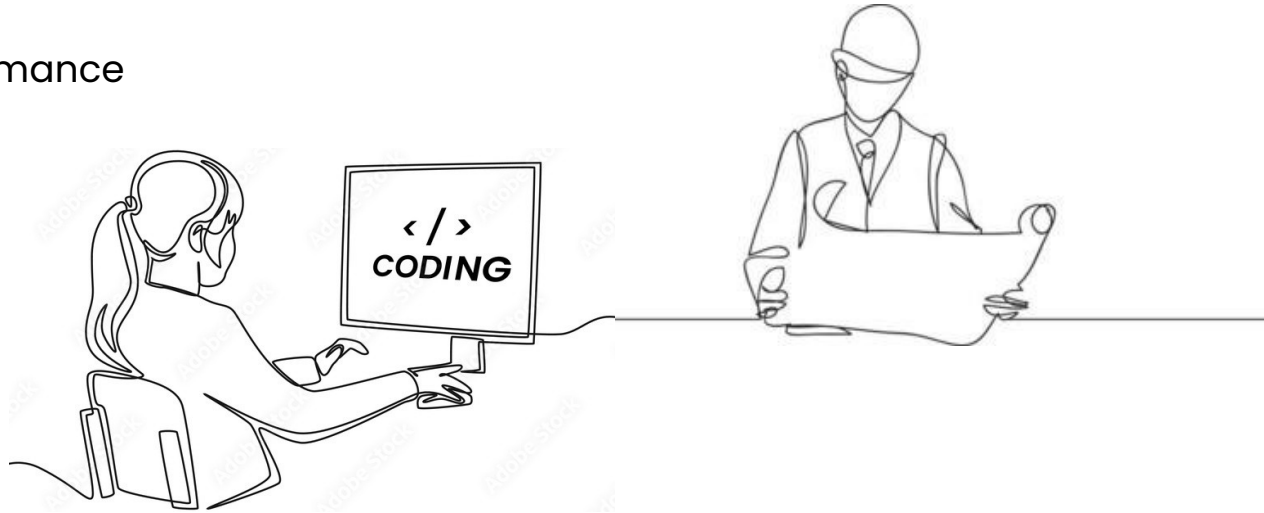

Innovation distinguishes between a leader and a follower.

APPLICATION CORE FOUNDATIONS

We focus on thorough requirements, user-centric design, security, quality, and performance. Our solutions support extensive data capture, detailed reporting, and multiple languages for broad usability.

- Thorough requirement analysis
- Practical feasibility studies
- User-centric design
- Prioritize security, quality, and performance
- Solutions with minimal entry points
- Maximize data capture
- Extensive reporting features
- Multilanguage support

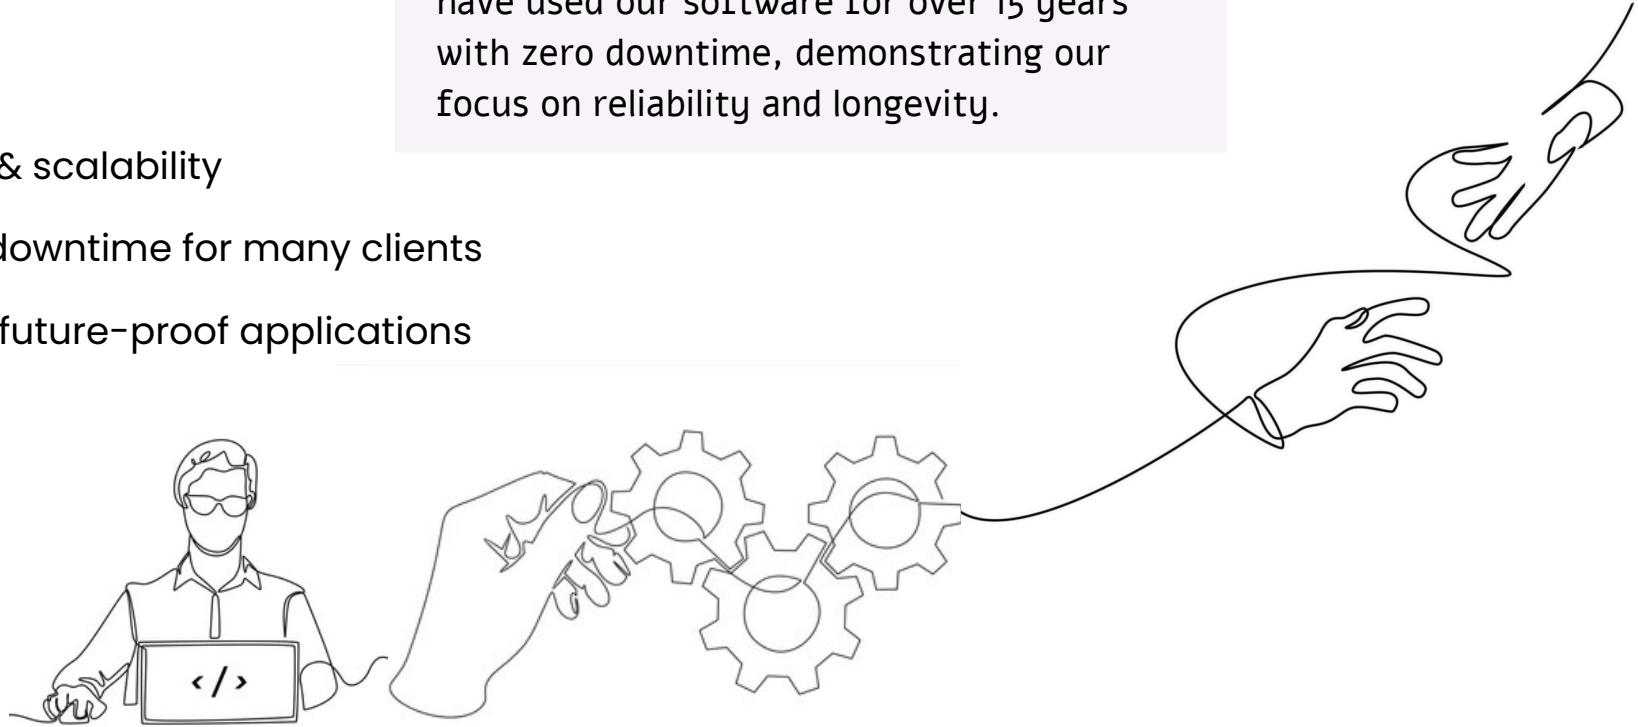

A satisfied customer is the best business strategy of all.

SUSTAINABLE SOLUTIONS

We create durable, scalable solutions that evolve with your business. Many clients have used our software for over 15 years with zero downtime, demonstrating our focus on reliability and longevity.

- Built for longevity & scalability
- 15+ years of zero downtime for many clients
- Focus on reliable, future-proof applications

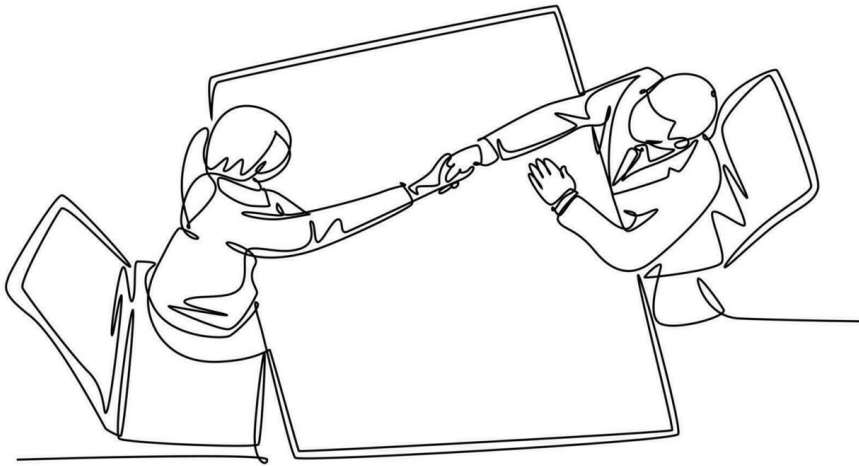

Building sustainable, reliable solutions that stand the test of time, because true innovation endures

CLIENTS

- While we do not publish our entire client list, we're proud to work with esteemed organizations, including some with over \$10 million in turnover.
- We're happy to provide specific references upon request. Feel free to contact us to learn more about our valued collaborations and success stories.

Every company's greatest assets are its customers.

LET'S CONNECT

Let's make this the beginning of a long and fruitful collaboration
